

Dear Donal

First of all I would like to say that God has been good to me indeed, because I am in metric this year and it really feels great even though it comes with alot of homework, and loads of homework everyday but I am really getting used to it. What makes this year even more great is that atleast now I know which path I want to go regarding my career, I finally decided to become a Nurse, I found out that it's actually something that I really love, so in June I'm going to get myself enrolled at ~~the~~ UWC, for the course I want to study which is Bcom Nursing. Therefore I really want to thank you for all your support by providing all necessary essentials for school, they have been really helpful to me and I will always remember you for your kindness.

Yours faithfully

Ji.Danya.
